

PRESS RELEASE

CheckSig becomes the first Italian crypto company to obtain Gender Equality Certification

A milestone marking progress for inclusion in the fintech and crypto sectors.

Milan, March 7, 2025 – **CheckSig**, a leader in Bitcoin and crypto solutions for both private and institutional investors, has achieved the **Gender Equality Management System Certification** according to UNI/PdR 125:2022, becoming the first Italian crypto company to receive this recognition. This accomplishment underscores CheckSig's commitment to fostering a fair, inclusive, and merit-based work environment where diversity is embraced as an opportunity for growth.

A Concrete Commitment to Gender Equality

The certification process involved a thorough analysis of corporate policies and practices, confirming that CheckSig aligns with **equity principles and international best practices**.

Francesca Luigia Motisi, Head of Legal and Compliance and Gender Equality Management System Manager, said: *"CheckSig has been recognized for its commitment to implementing effective policies for work-life balance. We have achieved significant results in promoting female leadership and have strengthened our recruitment and compensation processes to ensure evaluations based solely on merit. Additionally, our team participated in a training program to integrate gender equality into our corporate culture."*

New Awareness Initiatives

CheckSig's focus on gender equality extends beyond internal dynamics. In 2025, the company will launch **specific initiatives to encourage women to explore the world of digital assets**, a sector where female representation remains limited.

Concetta Ingrassia, Head of Marketing and Communications at CheckSig, commented: *"As a Benefit Corporation, CheckSig is committed to combining profit objectives with a positive impact on the community. Our awareness initiatives and training programs aim to elevate industry standards and support the growth of the Italian ecosystem. We believe that investing in education is essential to building an inclusive and accessible environment."*

With this recognition, CheckSig establishes itself as a benchmark for crypto innovation, not only for the quality of its services but also for its dedication to promoting a corporate culture based on gender equality, inclusion, and fair growth for all.
